Who We Are

Derived from the root word Synapse, Synaptiq was formed to be a vehicle to accomplish vital functions on the journey to Digital Transformation. We connect people with their passions and our services with engaged customers.

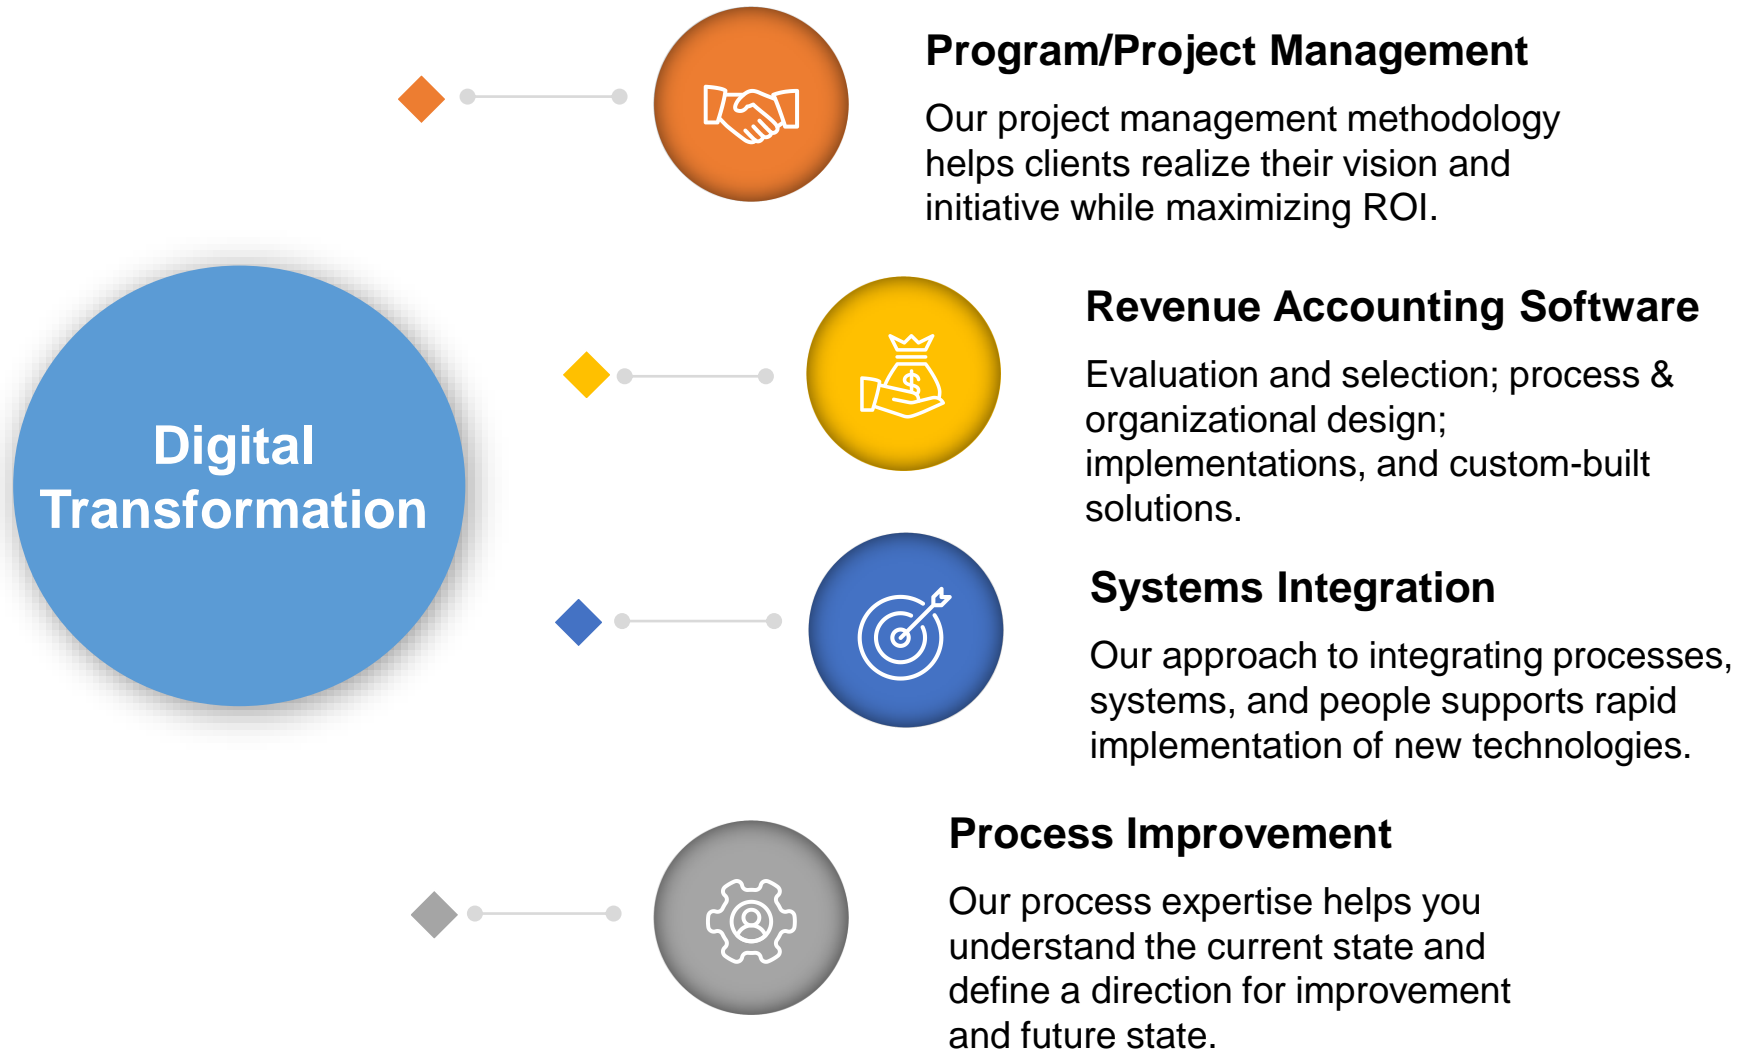

We value people and client relationships built on a foundation of trust and a track record of delivery. At Synaptiq, our people and responsiveness make the difference. Our team brings a strong combination of business, technical, and user experience capabilities to deliver measurable results for our clients. We deliver value with digital and airline industry solutions.

Our value proposition is simple – combine a best practice approach with experienced consultants to provide high-value, cost-effective solutions.

What We Do

At Synaptiq, we are helping Airlines with Revenue Accounting modernization efforts to optimize business performance, improve operations, and capitalize on digital transformation.

Synaptiq Engagement Models

With a strong combination of business, technical, and user experience capabilities, Synaptiq delivers value with digital and airline industry solutions via flexible engagement models.

Project Based

We build an understanding of the specific business need or issue, work with you to specify a discrete project with measurable results, and deploy an experienced team to execute the initiative.

Professional Staffing

We learn about your business objectives, challenges, and issues. We leverage a contingent workforce staffing strategy to address your needs with the right people, skills, and capabilities. We help you fill skill gaps to achieve business goals.

Managed Service

We proactively manage and assume responsibility for providing a customizable defined set of services on behalf of our clients while scaling the service to meet demand.

Why Synaptiq?

Our management team and consultants average 20+ years of airline industry experience. During that time, we have supported many critical airline applications while demonstrating airline domain expertise and continuously improving processes.

Revenue Accounting

- ✓ Built, implemented and integrated revenue accounting systems at multiple airlines.
- ✓ Shorter learning curves, experience, knowledge ensure quick ramp up.
- ✓ Software implementations, upgrades, and custom-built solutions.
- ✓ Process and organizational design.

Airline Industry

- ✓ Delivered many projects for carriers of all sizes.
- ✓ “Been there, done that” practical experience.
- ✓ Experience across the Airline enterprise (Revenue Accounting, Commercial, Finance, etc.).
- ✓ Commitment to delivery and measurable results.

Our experience and understanding of the airline environment will enable us to support you in reaching your project objectives.

TRIVIA TIME

Thank You!
